The best way to gauge how many solar panels you need, is to understand and define the power load needed from this system. Power is measured in Watts, and capacity is commonly measured in Watt-hours (multiplying power output in watts by the required number of hours of operation multiplied by a safety factor of 1.5-2).

Welcome to Kingdom Solar where you can crown your home with renewable solar power! With the rising cost of energy bills, demand for solar panel energy is huge. But never fear; our range of solar products and DIY solar kits are here!
