What should I consider when buying a 5kw solar generator?

Here are the top five things to consider when shopping for a 5kW solar generator. If you want a minimum 5kW solar generator, make sure the one you pick produces at least 5000W of continuous AC power. Double check that it is continuous output, not surge or peak output.

Can a 5kw solar generator run multiple appliances?

With 5kW of output, you can not only run any household appliance, you can power multiple appliances at the same time. This makes 5kW solar generators excellent for home backup or off-grid power. You can even integrate the solar generator into your home circuit such that it powers outlets and appliances directly.

Can a 5kw solar generator be used as a home backup?

Most 5kW solar generators have a home integration option. This will usually be a 30 amp 120V or 240V outlet that you wire to a breaker panel or an automatic transfer switch. If you are using the solar generator for home backup, get one with a UPS function.

Which solar generator should I buy?

If you want a solar generator that can keep most of your appliance running during a power outage, the Lycan 5000 Power Box is a great pick. With an output of 3500W, it can not only power almost any household appliance, it can power several at the same time. In an emergency, you can keep using your fridge, TV, washing machine, and other appliances.
