

Aesc group Belize

Who is AESC?

About AESC AESC is a global leader in the development and manufacturing of high-performance batteries for zero-emission electric vehicles and energy storage systems.

Where is AESC made?

Founded in Japan in 2007 and headquartered in Yokohama, AESC has been building manufacturing capabilities around the world in the U.S., U.K., Europe, Japan and China to serve key markets and leading customers locally for over 14 years.

Why is AESC a global company?

"AESC is building an incredible global team to meet the needs of the market and our customer base," said AESC CEO for U.S. and Europe Knudt Flor. "As our organization grows in the United States and Europe, we are expanding our leadership team to meet challenges and continue making the highest quality batteries in the world," he added.

Who are AESC's clients?

Its clients include some of the world's largest carmakers. AESC was originally the electric battery operations and production facilities of Japanese carmaker Nissan Motor Co. In 2019, Shanghai-based Envision acquired a controlling stake in the battery maker for an undisclosed amount.

Who are AESC & Envision?

Representatives for AESC and Envision declined to comment. The Japan-based company has been working with advisers on the series C round and is talking to anchor investors including global automakers, Bloomberg News reported last month.

Why should you choose AESC?

Today, AESC has become the partner of choice for the world's leading OEMs and energy storage providers in North America, Europe, and Asia. Its advanced technology powers over one million electric vehicles and provides more than 15GWh of installed capacity for battery energy systems in over 60 countries.

The Group generated revenues (excluding metal) of EUR 4.2 billion (turnover of EUR 25.4 billion) in 2022 and currently employs more than 11,000 people. About AESC.
