Questions call 773-965-2546 Recreational cruising sailboats and powerboats (and commercial) - Having plenty of electric power on board while cruising can make the difference between a fantastic experience and a marginal one. We know; we are cruising sailors. If you are considering solar power for your sailboat or powerboat (or camper van) and want to learn more about the ...

Marines' next-generation technology removes the need for risky energy supply lines. U.S. Marines fighting the war in Afghanistan have embraced solar power as a way to become more self-sufficient and less dependent on batteries and generators at the front lines. The use of solar energy and renewable energy sources is part of a plan by the Corps to cut by half ...

Boating is an ancient and time-honored skill. It's also an enjoyable hobby. Getting on the water can provide hours of relaxation and allow one to do everything, like fishing, sightseeing, or simply getting away from work and home for a while. However, any boat will need the power to energize everything from cell phones to navigation equipment. Just imagine the dread of sailing dead in ...
