We are trading in - Automotive Gas Oil Automotive Gas oil, also known as diesel, is generated from crude distillation process and is used to efficiently power internal combustion diesel engines. Our diesel conforms to the specifications from the Department of Petroleum Resources (DPR). Automotive Gas Oil, or AGO, is the name given to fuel intended for use in road ...

We are trading in - D2 Diesel Gas Oil D2 is a refinery abbreviation for Gasoil. It is the second distillate from the crude oil, and can be used without reformers and additives. So, the first engines used D2 as fuel -- before petrol cars as we know them today was invented. That is because the engine invented by a German called Diesel, requires no spark plugs. The diesel engine will ...

We are trading in - Base Oil N70 Pure Performance 70N is a high purity, low viscosity paraffinic oil produced from a high-pressure hydrocracking and hydro-dewaxing process that removes virtually all metals, sulfur, and nitrogen from ...
