

Why should you choose Kameleon solar?

At Kameleon Solar, we revolutionize urban energy solutions by creating customized and (multi-)colored solar panels that seamlessly integrate into any architectural design or make a bold statement. We make sustainability visually attractive, driving the wider adoption of solar technology and thereby contribute to a greener future.

Who owns a solar plant in Austria?

The plant includes sheep farming. The solar plant was built with 25,600 panels. German project developer Maxsolar has completed an 11.5 MW photovoltaic, ground-mounted system on a former gravel dump in Austria. The owner of the facility is the country's largest power provider Wien Energie, which is itself owned by the City of Vienna.

How much solar power does Austria have?

As of the end of 2022, solar power in Austria amounted to nearly 3.8 gigawatt (GW) of cumulative photovoltaic (PV) capacity, with the energy source producing 4.2% of the nation's electricity.

Should Chameleon panels be installed?

Many potential users hesitate to install panels due to aesthetic concerns. With the introduction of chameleon panels, this issue might be resolved, as they will serve both as an energy source and as features of urban and natural landscapes. Sunspeker has developed a transparent film that can disguise installations with any graphic design.

How much money does Wien Energie invest in solar and electric vehicles?

Wien Energie announced in 2018 a plan to invest around EUR100 million in solar and EUR15 million in charging stations for electric vehicles. This content is protected by copyright and may not be reused.

Will Austria achieve 100% renewable electricity generation by 2030?

In addition to supporting PV installations through permitting simplification and cash grants, the Austrian government is targeting 100% renewable electricity generation by 2030.
