

What is Bangladesh's latest development update - New Frontiers in poverty reduction?

Released today, the latest Bangladesh Development Update - New Frontiers in Poverty Reduction says that reforms to address inflation, through monetary and fiscal policies, as well as financial sector vulnerabilities will be critical for the country to sustain growth and poverty reduction.

Is Bangladesh a test case for development?

Once considered a test case for development, Bangladesh now offers invaluable development experience for other countries. Bangladesh has risen to the challenges of being severely affected by natural disasters and climate change, turning into a leader in climate adaptation and disaster preparedness.

Will Bangladesh present a VNR in 2025?

Bangladesh has so far presented two VNRs, the first in 2017 and the second in 2020, and is already on the list of countries to present a VNR in 2025- demonstrating its firm commitment to the SDG agenda. In the most recent VNR, Bangladesh highlighted progress in several key areas.

How can Bangladesh accelerate climate adaptation and resilience investments?

The new climate development partnership launched by Bangladesh's government and partners is an excellent model for mobilizing coordinated investments. This innovative collaboration will help accelerate climate adaptation and resilience investments through the Resilience and Sustainability Facility.

Will Bangladesh need a new caretaker government?

In effect, the country will need a new caretaker government, as BNP and the opposition have demanded. This will likely benefit a reconstituted Awami League in the long run and be their best bet. Economist and Nobel laureate Muhammad Yunus was picked by Bangladesh President Mohammed Shahabuddin to lead a new interim government.

Why is Bangladesh a good place to live in 2022?

Supported by economic growth, Bangladesh improved living conditions and reduced extreme poverty to 5.0% in 2022 from 9.0% in 2016, which is comparable to Latin America and the Caribbean countries and fares better than the South Asian average.
