

Bat safe lipo battery charging safe box Indonesia

What is a bat-safe LiPo battery charging box?

The BAT-SAFE LiPo battery charging box is basically like an Ammo box with flame filter. This is more of an overview than review because I am not going to deliberately start a LiPo fire to test it.

Is bat-safe LiPo battery charger good for FPV drones?

The Bat-Safe LiPo Battery Charging box I bought is the medium size, which is great for regular FPV drone use. Find it here: Each box comes with a set of instructions and a battery charger holder. Here's a list of features described by the manufacturer:

Should I get a bat-safe or a lipo bag?

So whether you choose the Bat-Safe, an ammo box, or a LiPo bag, the golden rule is to always prioritize safety. If you decide to get one, you can find it here: Secure your LiPo batteries with the Bat-Safe LiPo Box. Explore our review for its features, usage, and effectiveness in fire prevention and safety.

What is a bat safe box?

Here's a list of features described by the manufacturer: The Bat-Safe box is a sturdy, double-wall insulated steel container, designed to contain the heat of a battery fire. Instead of completely sealing the container, the BAT-SAFE is vented on top for hot gases and smoke to exit to avoid dangerous build-up of pressure inside.

How many LiPo batteries can a bat-safe XXL hold?

It has enough room for 4 to 6 of your 6S 1100mAh - 1300mAh LiPo batteries. Or 2 of the huge 6S 10000mAh ones. Bat-Safe also offers other sizes: Mini, XL and XXL. The XXL is a beast, perfect for e-bike batteries and those times when you need to charge multiple large Lipos. Mini measurements: XL size: XXL dimensions:

Is bat-safe a fire hazard?

If you're into drones, FPV or RC, or using lipo batteries in other applications, you know that there's always a risk of fire when charging. But with BAT-SAFE, you can rest easy knowing that your batteries are protected by its double-walled insulated steel construction and flame arrestor.

BAT-SAFE Mini LiPo Battery Charging Safe Box The simple solution to safely charge any battery containing lithium. If you are into drones, FPV or RC, or just using lipo batteries in other applications, be aware that they might catch on fire whilst charging. BAT-SAFE is a double-walled insulated steel box with a flame arrestor.

Install the connecting wires from the charger to the battery via the insulated fire collar, clip the easy to use latch and your battery is safe to charge with the piece of mind that your LiPo battery inside the Bat-Safe can never cause a fire when charging. The Bat-Safe has a magnetically attached hardpoint for your charger to mount directly on ...

Bat safe lipo battery charging safe box Indonesia

Instead of completely sealing the container like many homemade charging boxes, which makes the fire more intense and pressurized, the Bat-Safe safely vents the heat and smoke in a controlled manner. This XL version of the popular Bat-Safe and will easily handle four large 6S 6000mAh packs, or a small collection of standard FPV quad batteries.

Not only is the Mini Bat-Safe box perfect for storing and transporting your LiPo batteries safely, but its main aim is for the safe charging of your LiPo battery packs. The lid of the box has an insulated fire collar for passing the charging leads from yo
