How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

What is a Bermuda roof mounting system?

Our roof mounting system has been engineered specifically for Bermuda roofs. Unlike other systems that rely on Aluminum mounts and sealants that can break down and corrode over time, every single fiber-reinforced concrete and Stainless Steel penetration BE Solar installs provides a tough and leak free connection for decades.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.
