

In Bosnia and Herzegovina, which only recently got its first utility-scale solar power plant, coal and power producer EPBiH is gradually shaping its energy transition projects. It is focusing on photovoltaics, just like the other two state-owned power companies, with an ambition to set up clean alternatives.

“This natural synergy creates a strong partnership that allows us to jointly implement new technologies, exchange experiences, and educate our engineers, but also it enables a significant joint presence in the European Union market, primarily opening the markets of Germany, Italy, Spain, Portugal, Belgium, the Netherlands, and Luxembourg for ...
