

Brightbox solar Saint Martin

How much does a BrightBox Solar System cost?

What you'll pay for the Brightbox package can vary depending on the state and your financing option. Sources in New York report pricing between \$6,500 and \$8,000 in addition to the cost of your solar installation, while Sunrun advertises an initial cost of \$1,000 with its leasing arrangement in Massachusetts.

Where can I buy a BrightBox?

The Brightbox is only available to customers in the states mentioned above (Arizona, California, Hawaii, Massachusetts, and New York) looking to install a new solar panel system and would like to add storage. The Tesla Powerwall and Sunrun's Brightbox offerings are similar in multiple ways.

Does Sunrun offer financing for a BrightBox installation?

Sunrun offers a few different financing options for a Brightbox installation. Similarly to solar panels, you can buy or lease the equipment from the company. If you lease, you can choose a prepaid option or monthly payments. SunRun has loan options for the solar panel system and battery if you're looking to buy the equipment.

Milltech Martin Bright has been an early adopter of large scale commercial solar power technology. The factory roofs at the Tomago and Hexham facilities have provided enough space for the installation of 100kW at each site. There are plans to expand capacity with the installation of an additional 150kW at Tomago and 50kW at Hexham.
