Bulgaria is collaborating with other Member States in exploring the possibility to set up a European . Digital Infrastructure Consortium (EDIC) on Genome, to enable effective and secure cross-border . access to repositories of personal genomic datasets. Digital in Bulgaria's Recovery and Resilience Plan (RRP)

The mission of the Resilient Infrastructure + Secure Energy (RISE) Consortium is to address the energy security and climate crises by reimagining how we use, generate, transport, and store energy and how we build efficient, modern, resilient infrastructure.

Bulgaria is divided into three geographic regions for energy distribution, which are run by three different companies with three different procedures for connecting a solar plant to the grid. This means that a 100kW rooftop installation will be built according to different connection specifications depending on the region, even though ...

ATI is one of our valuable member of the Oil and Gas industry company database. Join us to explore the global platform and connect with industry experts. Toggle navigation ; Search for Augury; Marketplace; SOLUTIONS FOR COMPANIES. Company Directory. Simplifying search for the right products and services ...

ATI Energy Services can reduce your energy costs by quickly determining the energy efficiency improvement projects that meet your investment criteria. An ATI Energy Survey will define economically achievable Energy Conservation Measures "ECM" and project the cost and saving potential of each ECM. ATI Energy's recommendations are specific ...

The design of certain heating systems (i.e. central systems), makes installing individual submeters either cost prohibitive or not practical. Energy Allocation Submeters have been designed to measure the Time "T", that a rated mechanical piece of equipment runs or, additionally, the Time and Temperature "TT" that a piece of equipment runs, to calculate the energy used through an ...

Enery is renewable energy company with a bold vision for Bulgaria. Enery launched its business in Bulgaria in 2020 with the acquisition of the Karadzhhalovo Photovoltaic Power Plant in Plovdiv district. The company's goal is to provide top-quality O& M for its power plants, in accordance with the highest H& S standards.
