

What is Jamaica's energy source?

This page is part of Global Energy Monitor's Latin America Energy Portal. Oil and natural gas continue to supply most of Jamaica's energy, supplemented by significantly smaller contributions from renewables. As of 2020, nearly 89% of electricity was still generated by fossil fuels.

Is Jamaica following the National Energy Policy 2009-2030?

Jamaica is currently following the National Energy Policy 2009-2030. Jamaica's December 2020 update to its NDC (Nationally Determined Contribution) aims to reduce greenhouse gas emissions by more than 25% relative to business as usual levels by 2030, with the majority of reductions coming from the energy sector.

How much electricity does Jamaica have?

As of 2020, Jamaica's installed electrical capacity was 1156 MW, supplied primarily by fossil fuels (83.73%), followed by wind (8.82%), solar (4.93%) and hydro power (2.52%).

What percentage of Jamaica's electricity is lost?

More than a quarter (26.5%) of Jamaica's electrical output is lost through poor transmission and distribution infrastructure. In 2018, the peak demand was 655 MW, and 97% of the population had access to electricity. In 2016, Jamaica consumed 2.847 billion kWh. Jamaica has no coal reserves and does not produce coal.

Does Jamaica have coal?

Jamaica has no coal reserves and does not produce coal. Historically it has imported coal, but other fuels such as natural gas are gaining ground, and proposed coal plants, such as Jamalco Power Station, have been repurposed due to concerns over coal usage.

Does Jamaica produce natural gas?

Jamaica was not producing natural gas as of 2017. In 2016, Jamaica consumed 54,000 barrels of oil per day. In 2017, Jamaica consumed 6,961 million cubic feet of natural gas.

On June 24, 2024, following completion of Neoen's works council information and consultation process, a share purchase agreement has been signed between Brookfield (as purchaser) on the one hand, and Impala, the Fonds Stratégique de Participations managed by ISALT, Cartusia, Xavier Barbaro and other shareholders, on the other hand, to acquire approximately 53.12% of ...
