

An operational PV plant in Italy. The country's energy storage market is set to grow to integrate a growing renewable energy pipeline. Image: NextEnergy Capital. UK-based utility and IPP Octopus Energy has entered the energy storage market in Italy, forming a joint venture (JV) with developer Nexta Capital to deploy up to 1.5GW of BESS.

The four sites in central-southern Italy are being called the "Black BESS" project and will be completed by the first half of 2024. Alongside three other groups of projects, called Green, Blue and Yellow BESS, the ...

The JV will invest in the development of battery energy storage system (BESS) projects in Italy with a target of 2.8GW over a three-year period. Redelfi will handle the technical and operational development activities of the BESS projects through a development services agreement (DSA) between it and the JV entity, which will be signed within ...

As of now, we have completed many microgrid projects all over the world. Besides the small to medium size Commercial & Industrial energy storage and microgrid applications, the container ESS solution developed by us had also been widely used for many mega

PV module manufacturer Trina Solar has deployed its first energy storage project in Italy, for its project development arm. Subsidiary Trina Storage has commissioned the 9.3MWh battery energy storage system (BESS) project in Torre di Pierri, Italy, in the province of Taranto, southeast Italy.

Webinar: Jak wybrać i zamontować optymalną technologię baterii dla projektów BESS w Polsce? 10 grudnia o godzinie 12:00 CET (Sprawdź czas lokalny) | Czas trwania: 1h Maria Majewska Business Development Manager Mateusz Nalewajski Operations Director Ewa Paryś Project Manager Wybierz odpowiednią technologię baterii jest kluczową decyzją dla projektów ...

A solar PV plant in Colombia owned by Matrix Renewables, which is based in Spain. Image: Matrix Renewables via Twitter. Developers Matrix Renewables and Emeren have agreed a deal for a 410MW/3,280MWh ...

US renewables developer Emeren Group has sold two battery energy storage systems (BESS) in Italy with 293MW of capacity to Matrix Renewables. The sale is part of a DSA between Emeren and Matrix in June 2023 for the development of 1.5GW in the BESS portfolio. Go deeper with GlobalData. Reports.

A total of 11 countries, including India, Egypt and Kenya have joined the battery energy storage systems (BESS) consortium at the 2023 United Nations Climate Change Conference (COP28), being held in Dubai, UAE. ...

Mexico and Central America; Middle East and North Africa; Southern Africa; United States; West Africa; Learning ... Bess Rothenberg leads the foundation's office of Strategy and Learning. She works closely with all 10 global offices to strengthen Ford's capacity as a learning institution and ensure that learning and strategy are deeply ...

Under the agreement, ACWA Power receives contractual priority for 2 GWh of new BESS capacity in Uzbekistan, allowing the company to offer competitive tariffs. The agreement is valid for two years and may be extended by mutual consent. Both parties will collaborate on feasibility studies to identify optimal locations for BESS projects.

A project combining gas turbines and battery energy storage system (BESS) technology in the Czech Republic has been put into commercial operation, the largest in the country. Decci Group, an independent power producer (IPP), announced the completion of the hybrid "Energy Nest" project earlier this month (10 July).

The execution of Bungama BESS stage one will be conducted in partnership with Balance of Plant contractor Enerven, marking the fourth collaborative project between W&#228;rtsil&#228; and Enerven. W&#228;rtsil&#228; Energy vice president for energy storage and optimisation Andrew Tang said: "We are thrilled to work with Amp Energy on this critical project. ...

Aquila Clean Energy EMEA has started construction on a 50MW BESS in Finland, while MW Storage has launched two new projects in the country. Aquila, a developer and independent power producer (IPP), has started building the 50MW/50MWh standalone battery energy storage system (BESS) in Kotka, southern Finland, it announced on LinkedIn last week.

Recently-formed developer Innovo Group is targeting a 1.5GW/9GWh lithium-ion BESS development portfolio in Italy and UK, with the first system in central Italy online in Q1 2024. CEO Rodolfo Bigolin announced the start of development of the 72MW/432MWh BESS in central Italy via Twitter last week (9 November), saying the system would provide ...

Several African countries have formally expressed interest to join the groundbreaking Battery Energy Storage Systems (BESS) Consortium, launched Saturday during COP28, which could revolutionise Africa's energy ...
