

China ecactus battery

Who makes ecactus batteries?

eCactus is a Chinese company that manufactures battery energy storage systems (ESS) for residential and commercial applications. The company's batteries are available in Australia in a range of sizes and capacities, from 5.7kWh to 34.2kWh.

What is Weiheng ecactus 'Tianwu' battery system?

Weiheng Ecactus has unveiled its new Tianwu battery system, with 233 kWh of capacity and 100 kW of output, giving users the flexibility to connect up to 10 units in parallel. Chinese battery supplier Weiheng Ecactus has launched "Tianwu," its new 233 kWh all-in-one storage system.

Which ecactus battery is best?

eCactus SMILE5: This is a 5.7kWh battery that is designed for residential use. It has a round-trip efficiency of up to 95% and a lifespan of up to 15 years. The eCactus SMILE5 can be used for solar backup, load shifting, and peak shaving. eCactus STORION: This is a modular battery system that is designed for commercial and industrial use.

Can ecactus batteries help you save energy?

Increase your self-consumption of solar energy: eCactus batteries can help you increase your self-consumption of solar energy by storing excess solar energy during the day and using it at night.

Are ecactus batteries safe in Australia?

The company's batteries are available in Australia in a range of sizes and capacities, from 5.7kWh to 34.2kWh. They are made with LFP cells, which are the safest type of lithium-ion battery. eCactus batteries are backed by a comprehensive warranty, so you can be confident that your investment is protected.

What makes ecactus unique?

The eCactus brand embodies the cactus's ability to store abundant energy and its resilient spirit in harsh environments. This inspiration extends to our product series names, each reflecting characteristics of various cactus species. With 16 years of dedicated R&D, we remain at the forefront of energy storage innovation.
