

# Cidetec energy storage Cuba

Who is cidetec energy storage?

CIDETEC Energy Storage: Specialised in creating new battery technology and facilitating its transfer to industry. Our research activity covers from exploratory, low TRL new battery technologies and concepts up to high TRL product development for direct transference to the industry, near-ready for commercialization.

Why should you choose cidetec energy storage?

At CIDETEC Energy Storage, we are committed to generating high-added value knowledge and transferring it to industry. We help create employment and wealth in our local environment, developing efficient energy technologies focused on renewable energies and sustainability.

What is cidetec & how does it work?

CIDETEC is a private organisation for applied research founded in 1997 that seeks to contribute value to companies by harnessing, generating, and transferring technological knowledge. CIDETEC is comprised of three International Technological Reference Institutes in Energy Storage, Surface Engineering and Nanomedicine:

What is cidetec surface engineering?

CIDETEC Surface Engineering: Focused on the development of surfaces and materials and their application methods on different type of substrates (metals, polymers, and composites), mainly for automotive, energy, and aerospace sectors.

What can you do at cidetec?

At CIDETEC, you can develop your career alongside a team of highly skilled professionals in a collaborative, yet young and committed environment, focused on innovation. CIDETEC is an active member of the main clusters, platforms, and associations in Europe.

Why should you join cidetec?

CIDETEC is an active member of the main clusters, platforms, and associations in Europe. This approach allows us to stay at the forefront of key technological innovations, policies, and trends to come, nurture high added value contacts within the industry and academia and contribute to general EU goals from our experience and background.

En CIDETEC podrás desarrollar tu carrera junto a un equipo de profesionales de primer nivel, en un ambiente joven y al mismo tiempo comprometido, volcado en la innovación y que busca aportar soluciones prácticas que redunden en un mundo más sostenible.

En CIDETEC Energy Storage desarrollamos soluciones completas para paquetes de baterías de autobuses eléctricos y otros vehículos pesados. Nuestra labor abarca desde la elección y

## Cidetec energy storage Cuba

validación inicial de las celdas hasta el diseño completo del paquete de baterías, incluido el BMS, las comunicaciones y la seguridad. ...

CIDETEC Energy Storage, as a leading member of the battery community, will be well represented in the Battery Innovation Days programme with different contributions: Oscar Miguel, Deputy Director of CIDETEC Energy Storage, will ...

CIDETEC Energy Storage participates in two new BATTERY2030+ initiative projects: OPINCHARGE and PHOENIX 05/10/2023. Both projects are aligned with the aim of positioning Europe as a world leader in the development and production of sustainable batteries.

Contribución de CIDETEC al proyecto: CIDETEC Energy Storage aporta su experiencia para la generación de nuevo conocimiento sobre baterías, estableciendo las bases del desarrollo futuro de una nueva generación de baterías de alta densidad de energía para el sector de la electromovilidad y transporte pesado. Para conseguir este objetivo ...

CIDETEC Energy Storage ha desarrollado con éxito y de forma rentable una innovadora tecnología de batería semisólida basada en ánodo de metal de litio sin colector de corriente, cátodo NMC rico en Ni de alta carga y un electrolito de polímero tipo gel extremadamente conductor integrado en la celda. La tecnología desarrollada se sitúa actualmente en TRL 4-5, ...

The BATSS project officially commenced with a dynamic kick-off meeting held on January 10-11, 2024 in San Sebastian, hosted by CIDETEC Energy Storage. Bringing together a consortium of prominent organisations from across ...

Energy Storage. izaskunak; June 13, 2024 ... CIDETEC Energy Storage ikerketa erakundeak eta Naturklima, Gipuzkoako Klima Aldaketarako Fundazioak arrakastaz burutu dute ZIRKULAR BAT workshopa, ekonomia zirkularrak baterien industrian sortuko dituen aukeretara bideratutako nazioarteko ekitaldia. Trantsizio energetikoaren erronka ...

Contamos con una doble sala seca compuesta por dos estancias individuales interconectadas: La primera (30m<sup>2</sup>) está orientada a las actividades de I + D propiamente dicha, incluyendo la aditivación de electrolitos y el ensamblaje de prototipos de celdas con ánodo de litio metálico. El punto de rocío de la sala es de -60°C.

CIDETEC Energy Storage-k zortzi proiektu berri lortu ditu Europar Batasuneko Horizon programan 2022/11/03. 4,4 milioi EUR diru-sarreratan, baterien arloko teknologia eta aplikazioen garapenean urrats garrantzitsu bat ematearen truke. MAGBATT 4 kongresuan magnesiozko bateria kargagarrien gaia sakondu zen

## Cidetec energy storage Cuba

With a firm commitment to technology, here at CIDETEC Energy Storage, we focus on three main lines for SSBs: lithium-ion batteries (Li-ion SSB), lithium metal batteries (Li-metal SSB), and anode-free SSB batteries (batteries getting rid of the anode current collector). We believe that a holistic vision is needed to achieve all goals.

At CIDETEC Energy Storage we develop full size battery pack solutions for electric buses and other heavy duty applications. Our assignment cores from inicial cell choice and validation to full battery pack design, including BMS, ...

At CIDETEC Energy Storage we believe technology transfer to the industry is the culmination of the ideation and R+D process. We work together with leading national and international companies under B2B schemes, including heavy duty and passenger car makers, aerospace, specialty materials companies, battery manufacturers, energy companies and infrastructure ...

At CIDETEC Energy Storage, we are committed to generating high-added value knowledge and transferring it to industry. We help create employment and wealth in our local environment, developing efficient energy technologies focused on ...

La nueva ubicaci&#243;n acoger&#225; a CIDETEC Energy Storage y a los departamentos de Estrategia Corporativa del centro en 7.000 metros cuadrados, a los que se sumar&#225;n otros 2.200 metros cuadrados de laboratorios anexos ubicados en el edificio central de MUBIL, gestionados por CIDETEC, que tambi&#233;n se trasladar&#225;n a Eskuzaitzeta desde su actual ...

CIDETEC Energy Storage, consciente de la creciente demanda, inaugur&#243; en febrero de 2021 un nuevo Laboratorio de Ensayos de Bater&#237;as ubicado en el Polo MUBIL de Electromovilidad y Almacenamiento de Energ&#237;a, con una inversi&#243;n de m&#225;s de 6MEUR en equipamiento, para atender las necesidades de testeo tanto de los propios proyectos de ...
