Buildings come in a wide variety of shapes, sizes and purposes, so out-of-the-box fixes rarely lead to real energy savings. Our approach at Clear Energy is to evaluate all facets of a structure's energy use for our Energy Services Companies (ESCOs) and corporate clients and then offer a tailored solution that meets the budget and project goals.

Clean energy investment is crucial to achieving gender equality and women's economic empowerment. In countries like Ethiopia, especially in rural communities where modern energy is rarely available, the primary source of ...
