Grid-tie solar power systems are the most cost-effective way to offset your electricity bill. Whether you choose easy DIY installation (guided by our experts) or hire a local contractor, grid-tie solar is the smart choice for short-term savings and long-term profitability.

1kW - 3kW Off-grid Systems. 1kW - 3kW off-grid systems are not quite enough to power your main home but could be enough for a weekend cabin, outbuilding, home office, holiday home, summer house or workshop.. A 1200W off-grid solar kit would generate enough energy to run a small refrigerator, small appliances, charge a phone and run a couple of light bulbs.
