What certificate does Congo energy have?

Congo Energy has the certificate issued by ARSP (Autorit  de R gulation de la sous-traitance dans le secteur priv ). This certificate certifies that Congo Energy is authorized to work as a subcontractor in the Democratic Republic of Congo. Congo Energy strives to provide its partners and customers with high-quality products and services.

How many people have electricity in the Democratic Republic of Congo?

Goma hybrid solar project in the Democratic Republic of Congo According to the World Bank, only 19% of the DRC's around 102 million people have access to electricity. This translates to about 41% in urban areas and 1% in rural areas.

How will Nuru empower 5 million Congolese people?

By delivering world-class renewable energy and connectivity services, Nuru aims to empower 5 million Congolese people, one connection at a time. Moving ahead, it will be important to strengthen the public sector and the government's capacity for cross-unit delivery in order to effectively finance renewable energy mini and metro-grids.

Why do Congolese people need electricity?

According to the International Trade Administration, lack of access to modern electricity services impairs the health, education and income-generating potential of millions of Congolese people. "Most power generation development is directed and funded by mining companies seeking to power their facilities."

How has Nuru changed Congo?

From the dynamic city of Goma to the isolated towns of Faradje and Tadu, which were electrified for the first time, Nuru has created dozens of jobs, boosted the local economy, and improved the living conditions of hundreds of thousands of Congolese.

Nordic countries have the lowest energy tariffs in Europe, with current prices being the lowest in the last 12 years. While average European household tariffs increased from EUR0.188 per kWh in 2012 to EUR0.2078 per kWh in 2015, Nordic countries experienced a decrease from EUR0.1913 per kWh in 2012 to EUR0.1856 per kWh in 2015, analyses the report.
