

How can Portugal meet growing energy demands in a sustainable way?

Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way. These efforts align with European Union objectives, such as the RePowerEU plan and the Renewable Energy Directive, which targets 42.5% renewable energy in total consumption by 2030.

Who owns constant energy & virya energy?

THAILAND, July 28th, 2023: Constant Energy and Virya Energy ("Virya") today announced the acquisition of a majority stake in Constant Energy by Virya through a combination of primary investments and secondary shares from Olympus Capital Asia, a leading middle market investment firm focused on Asia.

Why is Portugal so dependent on imported energy?

Portugal ranks as the 11th EU member state most dependent on imported energy sources, with a decreasing dependence since 2000, when 85% of its energy was imported. This is mainly due to the lack of fossil energy sources, which continues to impact the total consumption of primary energy significantly.

Who is constant energy?

Constant Energy is a well-established Singapore-based renewable electricity generation and storage development platform focused on the rapidly accelerating market of photovoltaic assets, encompassing rooftop solar, selling renewable power to reputable international corporate clients through long-term corporate PPAs.

Why is virya partnering with constant energy?

Virya Energy and Constant Energy forge a powerful partnership, significantly boosting Virya global presence in renewables. With Virya now as the majority shareholder and having gained extensive access to capital, this alliance propels Constant Energy into a new era of growth and development.

Why is wind energy important in Portugal?

Wind energy remains a crucial component of Portugal's electricity production, accounting for 25% of the total. Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way.

On December 29th, 2020, Constant Energy's first Corporate PPA with Leading Star Garment Joint Stock company in Binh Duong, Vietnam was energized with a total installed capacity of 1 MWp and closed a non-recourse project finance of VND 8.9 billion (approx.
