Discover our range of wall & pole mounting floodlight brackets. Sign brackets for all types of signage, including cranked, post top, offset and stand-off brackets.

How do I choose the right solar street lighting?

Choosing the right solar street lighting can dramatically reduce installation costs but requires careful consideration. Here's what to look for: Solar Panel: Check panel power (Watts), size (M²), and efficiency (%). Higher values generally mean better performance. Solar Irradiance: Know the solar power available in your location.

What is solar street lighting?

Solar street lighting is an excellent solution for temporary or essential works lighting. Solar lights, using redeployable solutions such as the below concrete blocks, can be installed quickly without the need for a mains connection, providing immediate illumination. This flexibility is beneficial for essential work or emergency repairs.
