We are an innovator in renewable energy development, inspired to provide energy solutions to build a sustainable future. Our CWP Europe business unit is currently pursuing 6+GW of utility-scale, ...

CWP Global brings extensive expertise and a proven track record in developing best-in-class renewable energy project portfolios in both South-East Europe and Australia and is now one of the world's leading developers of ultra-large-scale renewable hydrogen hubs, with a vision to supply emerging international markets for green hydrogen, green ...

Two significant ammonia energy players have announced partnerships and production projects aimed at the decarbonisation of steel production. Utilizing their existing approaches to large-scale electrolytic hydrogen production for ammonia, CWP Global and Green Energy Park will develop projects in Mauritania and Brazil aimed at producing hot-briquetted iron for export to Europe.

At CWP Global, our strength lies in our global community. Our teams are remotely based worldwide across 21 countries and embrace the rich tapestry of over 35 nationalities! Diversity is a cornerstone of our identity, cultivating an inclusive, caring, and empathetic culture that resonates in every corner we traverse.

CWP Global and Copenhagen Infrastructure Partners (CIP) are pleased to announce the recent completion of CIP's strategic investment in CWP's development portfolio of ultra-large-scale green hydrogen hubs, ...

La compa&#241;&#237;a serbia CWP Global, a trav&#233;s de su filial Southern Cone Energy, ha anunciado una significativa inversi&#243;n en un ambicioso proyecto de hidr&#243;geno verde en Argentina, espec&#237;ficamente en la provincia de Tierra del Fuego. Este acuerdo con el Gobierno local marca un paso importante en la transici&#243;n hacia energ& iacute;as renovables en el pa& iacute;s.

Grid Connected Combining a global perspective with extensive local experience, CWP Europe is developing 7+ GW of utility-scale wind, solar and battery storage projects in Southeast Europe, in a joint venture with Mercuria. To date, it has successfully developed, financed and built numerous wind and solar projects totaling nearly 6...

No falta nada. Tierra del Fuego est&#225; a punto de convertirse en un epicentro clave para la producci&#243;n de hidr&#243;geno verde. Todo, gracias a una alianza entre el gobierno fueguino y la multinacional CWP Global. Una de las megaempresas m&#225;s importantes que hay. Este proyecto busca transformar la matriz energ&#233;tica de la provincia, que hasta ahora ha estado dominada ...
