How many lithium-ion car batteries can the Czech Republic produce a year?

According to current estimates, that's enough ore to produce almost one million lithium-ion car batteries a year. The Czech Republic would ideally like to produce the batteries, too, and is planning a gigafactory for that very purpose.

Can the Czech Republic produce a car battery?

The Czech Republic would ideally like to produce the batteries, too, and is planning a gigafactory for that very purpose. "We can cover the entire chain from extraction, processing, battery production, chip production to the final production of cars," said Fiala.

What is the difference between lithium ion battery prices and nickel prices?

Data until March 2023. Lithium-ion battery prices (including the pack and cell) represent the global volume-weighted average across all sectors. Nickel prices are based on the London Metal Exchange, used here as a proxy for global pricing, although most nickel trade takes place through direct contracts between producers and consumers.

How much solar power does Czechia have?

According to the International Renewable Energy Agency, Czechia had 2,073 MW of installed solar power at the end of 2020, 13 MW less than it had at the end of 2019. The nation has also provided incentives for rooftop PV through a Green Savings Program, and to solar-plus-storage projects through a separate, dedicated scheme.

Can a PPA be used to sell solar power in Czechia?

Several utility scale solar projects are being developed in Czechia, with investors hoping to secure subsidies from a recently launched rebate scheme that covers up to 50% of the costs. Securing a PPA to sell power, however, may be more difficult, as the current market conditions do not offer many opportunities for long-term deals.

Will Czech Republic cooperate with German state of Saxony on lithium extraction?

The Czech Republic has already concluded a Memorandum of Cooperation with the German state of Saxony about possible cooperation on lithium extraction. On the Czech side, extraction will be managed by the majority state-owned electricity producer CEZ.
