

How many solar power plants did Czechia build in 2023?

Czechia built around 1 GW of new PV plants in 2023, according to data from the Czech Solar Association (Solání Asociace). In total, 82,799 solar power plants were connected to the grid, with a combined total output of 970 MW. The nation achieved a record-breaking year with 145% growth, connecting 49,000 more power plants than it did in 2022.

Does Czechia need more energy storage capacity in 2023?

Czechia registered strong PV capacity growth in 2023, driven by a surge in residential installations. The nation's PV association says it expects a shift toward larger power plants in the coming year, but notes the need for more energy storage capacity.

Can a PPA be used to sell solar power in Czechia?

Several utility scale solar projects are being developed in Czechia, with investors hoping to secure subsidies from a recently launched rebate scheme that covers up to 50% of the costs. Securing a PPA to sell power, however, may be more difficult, as the current market conditions do not offer many opportunities for long-term deals.

The Czech electricity system in 2020 consisted of a nationwide transmission system (very-high-voltage lines), 17 cross-border connections to neighbouring countries, and a distribution system (very-high, high- and low-voltage lines and cables) operated mainly by 3 distribution system operators (DSOs).

Linc Energy Systems will exhibit at the CEESI 2024 Ultrasonic Meter User's Conference in Colorado Springs on June 12-13, 2024. This conference provides an opportunity to network with representatives from ultrasonic meter manufacturers and end users to discuss measurement challenges in the oil and gas industry.

Currently, OPENPLUS has 5 models of thermal solar collectors, as well as a wide range of complementary products that allow to obtain high quality systems. OPENPLUS products are already available. are globally, certified to Solar Keymark, EN12975-12976 and approved by the German Ministry of Economy. The company is also certified NP EN ISO 9001:2015.

- Create, produce and market solar systems that meet the needs of our customers. - Offering innovative and reliable solutions for heating water using solar energy. - Encourage the development of personal and commercial relationships, always committed to the sustainability of the planet and the preservation of the environment.

The Czech state is prepared to lend up to 330,000 barrels equivalent to Orlen's Litvinov refinery from its oil reserves in response to Russia's halt to crude flows via the Druzhba pipeline.
