Some of recent studies explored the phenomenon of slip traces being curved, wavy, sloped, or flat [6, 40, 41], which was attested to exhibit a non-planar nature on the ...

Lin et al. [48] assessed the structural deformation and relevant misalignment of solar radiation in a 2-kW PV sun tracking system in order to design a reliable PV solar tracker ...

differences in deformation mechanisms as explained here. Stage I--Elastic deformation is a reversible process which involves stretching of the atomic bonds. The elastic limit of Mg and ...

Hot compression tests were conducted to explore the deformation behavior of an extruded 7075 aluminum alloy bar at elevated temperatures. Specimens with 0°, 45°, and 90° ...

Aluminium alloy 6061-T6 (AA6061-T6) shows a promising potential for cryogenic structural applications. This alloy exhibits remarkable monotonic tensile properties at low temperatures. ...
