

What is electricity generation in Trinidad & Tobago?

Electric Power Generation In Trinidad and Tobago (T&T), electricity generation primarily uses natural gas as the fuel source. The power generation technology used are simple cycle gas turbines and combined cycle gas turbines with heat recovery steam generators.

Who owns the energy in Trinidad & Tobago?

In 1994, it divested from its generation holdings on the larger island of Trinidad and now purchases energy from three Independent Power Producers (IPPs): the Power Generation Company of Trinidad and Tobago, which purchased the former T&TEC-operated plants and presently controls 1,386 megawatts (MW) of gas-fired capacity across

How many independent power producers are there in Trinidad and Tobago?

The present electricity generation landscape in T&T comprises three Independent Power Producers (IPPs) providing bulk power with varying obligations and contracted capacities to Trinidad and Tobago Electricity Commission (T&TEC).

Does Trinidad & Tobago need energy subsidies?

Unlike many island nations, Trinidad and Tobago has significant oil and natural gas reserves and is a net exporter of these fuels. However, subsidies for domestic energy consumption have created a fiscal burden on the government that could be reduced through the expansion of alternative transportation fuels, energy efficiency, and renewable energy.

What is the energy policy of Trinidad and Tobago?

The Government of Trinidad and Tobago is currently developing a national energy policy green paper that recognises renewable energy's (RE) combined with energy efficiency (EE) and utilisation of compressed natural gas in the transportation sector, inter-alia, as important strategies for the promotion of sustainable development of the nation.

Will the future carbon factors for electricity generation decrease in Trinidad & Tobago?

A Unique Approach for Sustainable Energy in Trinidad and Tobago 24 Carbon Intensity of Power Generation  
It is expected that the future carbon factors for electricity generation in T&T will decrease (in comparison to the current ones)--for three main reasons:

Welcome to Solar Energy Caribbean, your top choice for solar energy solutions in Trinidad & Tobago. We help save on T& TEC bills and guard against power outages with our renewable energy systems. Our team of experienced electricians and roofers specializes in both residential and commercial solar panel installations, with over 13 years of expertise.
