

5 Background: On February 21, 2023, the Grid Deployment Office launched the PR-ERF to support improvements to Puerto Rico's electric grid. After recent natural disasters and decades of underinvestment in the electric grid, this fund is being developed in consultation with local entities and communities to increase energy resilience and reduce the energy burden of ...

This study aims to assess the feasibility for co-locating offshore integrated multi-trophic aquaculture (IMTA) and wave energy off the coast of Puerto Rico. IMTA allows the co-farming of fed species (e.g., fish), extractive species (e.g., shellfish), and macroalgae, increasing the sustainability of aquaculture by creating an integrated system.

-- Eaton said Tuesday it completed a clean energy microgrid system at its plant in Arecibo, Puerto Rico, where it makes circuit breakers. The microgrid system, deployed in collaboration with ...
