

Eaton storage Switzerland

Who is Eaton energy storage?

Leveraging more than 100 years of experience, Eaton is an innovator in the field of Energy Storage. Providing control systems, transformer, grid interface switchgear, low-voltage switchboard, cable tray and various commissioning services, we work with partners to create solutions that combine several aspects of energy storage needs in one.

Why should you use Eaton's energy storage system?

With Eaton's energy storage systems, homes and businesses gain access to a safe, reliable and efficient power management that harnesses the full potential of renewable sources. Now you can store energy when it's available and when rates are at their lowest, and use it when you need it.

What makes Eaton a great power management company?

At Eaton, we're dedicated to improving people's lives and the environment with power management technologies that are more reliable, efficient, safe and sustainable. Because that's what really matters. And we're here to make sure it works. Today, the world runs on critical infrastructure and technology. Planes. Hospitals. Factories. Data centers.

Why do companies rely on Eaton?

And the companies behind them depend on us to help solve some of the toughest power management challenges on the planet. At Eaton, we're dedicated to improving people's lives and the environment with power management technologies that are more reliable, efficient, safe and sustainable.

Eaton's Bussmann series battery storage fuses are available as bolted or bladed mounting options to suit new, or existing battery storage system. Dedicated team of fuse application engineers. We have a team of world expert in fuses dedicated to help you select the best fuses for battery systems.
