Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

Continued from "10MW solar farm to be built in Barbados" In 2016 Barbados welcomed its first utility scale solar farm at the north of the island in Trents, St. Lucy. On June 11 th, 2016 it was first connected to the grid and after a month of commissioning and testing, it officially began commercial operation in August 2016. To accommodate this level of power ...

Photo credit: CloudSolar Inc. In 2020 I wrote a review about the Sun Exchange, the world's first peer-to-peer solar panel micro-leasing platform which powers solar projects primarily in South Africa. Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project and thereby earn solar ...
