

Ecobat technologies ltd Martinique

Who is ecobat resources?

Ecobat Resources is the leader in the responsible recycling and production of resources essential to modern life. Backed by an international network of smelters, we are the world's largest producer of lead and lead alloys used in energy storage solutions and a range of other industrial and commercial applications.

Who is ecobat battery?

Ecobat Battery manages the procurement and sale of energy storage solutions. We supply batteries for a wide range of uses, including automotive, commercial vehicle, marine and leisure, motorcycle and industrial applications.

Who is ecobat battery Belgium?

Ecobat Battery Belgium is part of Europe's largest independent importer of batteries, and distributes a wide variety of the biggest brands, with a permanent stock of more than 100,000 batteries. This facility's excellent logistics enables them to offer optimum service.

Who is ecobat battery Benelux?

Ecobat Battery Benelux is part of Europe's largest independent importer of batteries, and distributes a wide variety of the biggest brands, with a permanent stock of more than 100,000 batteries. This facility's excellent logistics enables them to offer optimum service.

What has ecobat done for Nissan?

Ecobat continues to make headlines for breakthroughs in lead production and recycling. Discover what we've accomplished lately and our impact on the industry. Nissan and Ecobat Solution UK's partnership is highlighted as the MinterEllisonRuddWatts Energy team evaluates 'second life' battery technology.

With operations throughout Europe and the United States, Ecobat is a leader in the collection, recycling, production and distribution of energy storage solutions, lead and polypropylene products, and other commodities essential to modern life.

As the world leader in battery recycling and lead production, we leverage cutting-edge technologies and our network of facilities and service providers to develop innovative products that meet the ever-growing demand for more efficient and ...

drive advancement toward greater sustainability, including our expanded and now turnkey collection and recycling management ...

Ecobat Solutions enables the circular battery economy and returns value to lithium-ion scrap generators. We offer collection, transportation, diagnostics and recycling services. With a high recovery rate and low cost of operations, Ecobat is able to offer competitive pricing for scrap lithium-ion material, as well as reduce the risk and hazards ...

Unlike Ecobat, some "disposal" agencies may send intact batteries overseas for cell harvesting. That means your scrap battery material may end up in a new application without your knowledge or permission. Ecobat is committed to recycling and can provide evidence and documentation that your batteries have been recycled.

At Ecobat, our operations are centered around sustainable processes and practices for the safe, effective handling of lead. Recycling and resource recovery comprise more than 80% of our business. Our closed-loop recycling approach helps us maintain the supply of lead while reducing the overall environmental footprint of lead.
