What's going on with Ecuador's first large-scale solar power project?

QUITO, March 3 (Reuters) - Ecuador's government on Friday signed a deal with Spanish company Solarpack for the construction and operation of the country's first large-scale solar power project, with an estimated investment of nearly \$145 million.

Does Ecuador use solar energy?

Despite this substantial solar potential in Ecuador, PV use remains marginal. The latest report from the Agency of Electricity Regulation and Control (Agencia de Regulación y Control de Electricidad, ARCONEL) indicates that the current PV energy capacity in Ecuador is 27.63 MW.

What is the solar market in Ecuador?

The Ecuadorian solar market has been developed in rural areas to supply electricity to isolated areas. Approximately 5000 PV systems have been installed, mainly in the Amazon region; they provide 0.65 GWh/year. In the case of the country's PV energy plants, the capacity ranges between 0.37 MW and 1 MW.

Is Ecuador laying the foundation for 15% solar PV growth?

Ecuador is laying the foundation for 15% solar PV growth over the coming decade, data and analytics company GlobalData reports. The country is currently taking its nascent steps into non-traditional renewable energies, particularly solar PV deployment.

What is the Current PV energy capacity in Ecuador?

The latest report from the Agency of Electricity Regulation and Control (Agencia de Regulación y Control de Electricidad, ARCONEL) indicates that the current PV energy capacity in Ecuador is 27.63 MW. This number represents approximately 0.32% of the effective power produced by renewable and nonrenewable sources.

What will Ecuador's energy mix look like in 2030?

While solar PV is a key area of Ecuador's energy mix that has potential for growth, GlobalData anticipates that hydropower will account for more than 65% of the power supply in 2030. Oil-based generation will be in second place. Both the wind and biomass potential are limited, IRENA's data indicates.

Polaron's customer portal is now live! At Polaron, we've always believed in the importance of full transparency. Our customer portal is an entirely secure, user-friendly experience, condensing all of your project information ...

Polaron knows how to get the most out of your solar and battery solution. With over 10 years of experience in the solar industry and 10,000 installations under our belt, we can optimize your Distributed Energy Resources like no other.

Ecuador polaron solar energy

Polaron Solar Energy is a top-notch solar energy company that specializes in home installations across Canada.
