EDP is a transformative investment in El Salvador's clean energy future. The project is delivering approximately 30% of the country's energy demand with clean power and has modified the Salvadoran energy matrix by incorporating natural gas for generation and other uses, reducing the country's reliance on diesel and heavy fuel oil-fired power generation.

La Asociación Salvadoreña de Industriales (ASI) inauguró ayer una nueva edición del ya tradicional Congreso Regional de Energía (COREN 2023), en el cual los participantes y representantes del ...

Javier González, ASI's energy manager, emphasized El Salvador's remarkable achievement of covering over 70% of its energy demand with renewables, placing it among the top 20 countries globally. He underscored the country's diversified energy matrix--40% hydroelectric, 30% geothermal, with additional contributions from other renewables ...

This initiative is poised to enhance El Salvador's energy sovereignty and align the country with international standards. Daniel Álvarez, president of CEL, emphasized that OIPEN will function as an autonomous entity responsible for directing its operations and appointing the necessary technical and administrative staff.

The size and type of the plant needed to meet El Salvador's energy demands are still under consideration. Despite questions from Congresswoman Claudia Ortiz (Vamos), Álvarez could not provide precise figures on the state's investment over the seven-year plan. He emphasized that the numbers are still being analyzed, with a focus on ...

El terminal de combustible de Cenérgica es uno de los dos terminales de combustible operativos en El Salvador. Los estanques de combustible de Cenérgica tienen una capacidad agregada de almacenamiento de 240,000 barriles y el combustible es entregado en su terminal de combustible, por barcos tanque a través de 3 km de un sistema de tubería ...

El Salvador made a significant stride in its energy future by participating for the first time in the 68th General Conference of the International Atomic Energy Agency (IAEA) held in Vienna. The Central American nation unveiled its ambitious plans to integrate nuclear energy into its energy matrix, signaling a pivotal shift in its energy strategy.

El Salvador: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across ...
