

Will a new nuclear power plant benefit Belarus?

According to Tatjana Manyonok, it is too early to assess how beneficial nuclear power will be to Belarus. "Proponents of the new nuclear power plant hold two assumptions: the NPP will help to reduce energy dependency on the Russian Federation and will also allow the country to increase its energy exports". Will it?

What happened to the nuclear power plant in Belarus?

After the accident at the Chornobyl nuclear power plant, plans to construct the NPP in Belarus were cancelled. In the 2000s, after returning to the idea of embarking on nuclear power, the desk review and, if necessary, minor additional reconnaissance works of the prospective areas were conducted.

Does Belarus have a nuclear energy program?

International cooperation and initiatives Since 2008, when the national nuclear energy programme was adopted in order to develop the necessary infrastructure for nuclear power generation, the Republic of Belarus has made significant progress thanks to fruitful cooperation with competent international organizations.

What is the electric power sector of Belarus?

The electric power sector of Belarus is an intensively automated complex consisting of regional energy systems combined into the national system with integrated operation and control management. Presently, the national electric power sector is integrated under SPA "Belenergo", which includes the operation and control management facility.

How much electricity does Belarus use a year?

Belarus consumes around 36-37 billion kilowatt-hours (kW/h) of electricity a year and the two blocks alone will generate 42% of this amount. There are attempts to increase power input: a raft of plans to increase consumption have been signed off, incentives for electric heating systems in buildings, e-mobility and much more.

How is energy policy implemented in Belarus?

1.1.1. Energy policy State policy and regulation within the energy sector, including nuclear energy, energy efficiency and renewable energy, is implemented through laws, decrees and directives adopted by the President of the Republic of Belarus.
