

Volume 1 - Solomon Islands National Energy Policy 2014; Volume 2 - Energy Efficiency and Energy Conservation: A Strategy and Investment Plan (2014 - 2019) Volume 3 - Petroleum & Alternative Liquid Fuels Strategies and Investment Plan (2014 - 2019) Volume 4 - Renewable Energy Strategies & Investment Plan 2014

We understand the critical importance of reliable power solutions to keep your operations running smoothly. As the authorised dealer of Caterpillar generators in Australia, PNG and Solomon Islands, whether you need continuous energy for critical operations or backup power during emergencies, we offer comprehensive prime and standby power solutions tailored to your needs.

closely linked to the National Development strategy (NDS) of Solomon Islands 2016 - 2035 and its vision of a "United and Vibrant Solomon Islands". In this regard, Energy is included in the Solomon Islands National Infrastructure Investment Plan and NDS as being integral and important for achieving the goals of the NDS.

Cat#174; Compact ESS, is a mobile battery energy storage system that supplements traditional mobile power solutions to reduce noise, enable deployment of renewable energy sources, and, under certain conditions, allow customers to operate their generator more efficiently. Designed for rapid plug-and-play installation and integration, the Cat Compact ESS module can be used ...

The trend of adopting innovative solutions, including renewable energy (RE), energy efficiency, and other technologies in SIDS, continues to evolve. The cumulative installed RE capacity increased substantially from 2014 to 2023, rising from 3.7 GW to 8.76 GW. Solar energy exhibited a remarkable increase, growing from 0.1 GW in 2014 to 4.2 GW in ...

Stellae Energy, a UK-based Green Energy Solutions and Assets company, has made significant progress following the signing of a detailed Memorandum of Understanding with the Solomon Islands in 2023. The MOU ...

UK-based Green Energy Solutions and Assets Company Stellae Energy Ltd (Stellae) has reported significant progress on the proposed geothermal power project in the Solomon Islands, which is initially targeting a 30-MW capacity development. This follows the signing of a Memorandum of Understanding (MoU) between the company and the Solomon ...

Strategy of Solomon Islands 2011-2020 and its vision of a "united and vibrant Solomon Islands." Energy is included in the Solomon Islands National Infrastructure Investment Plan and the . National Development Strategy as being integral and ...

The Solomon Islands government has set a 50% renewable energy use for power generation by 2020 to be achieved through its Tina Hydro Development Project and the Savo Geothermal projects, both developments to be commissioned by the end of 2017.---Rural Households Electrification Targets: Diesel self-generation 5% in 2015 5% in 2020, 3% in 2030.

A two day "National Energy Summit" was officially opened by Prime Minister Jeremiah Manele in Honiara this morning, Thursday. Led by the Ministry of Mines, Energy and Rural Electrification, the Summit's topmost goal is addressing challenges broadly related to affordable energy security through affordable, sustainable and innovative solutions.

Prime Minister Hon. Jeremiah Manele recently held a significant roundtable bilateral consultation with Gauri Singh, the Deputy Director General of the International Renewable Energy Agency (IRENA), marking a pivotal step in the Solomon Islands' renewable energy ambitions.

Solomon Islands National Energy Policy 2019 o (i) promoting efficient use of energy resources and increasing sector sustainability, (ii) establishing a sound regulatory environment, and (iii) ...

Access to energy in Solomon Islands is a widespread issue. Supply is unreliable and cost unaffordable by most of the population. In rural areas it's a more pressing issue, it is almost non-existent. However, a recent initiative by the Stimulating Progress towards Improved Rural Electrification in Solomon Islands (SPIRES) project has set a shining example of how ...

Leading the way in Marine Power Solutions. Caterpillar is the marine industry's leading provider of medium and high-speed marine diesel engines, generator sets and auxiliary engines. We're committed to meeting your requirements regardless of size of vessel or location in Australia, Papua New Guinea or Solomon Islands.

On June 1st 2016, MAN officially handed over a new 10MW power plant to the Solomon Islands Electricity Authority (SIEA). The power station was designed with 4 x MAN 9L27/38 generator ...

The RBF approach for energy access fits the challenge of electrifying Solomon Islands for several reasons. Initial high upfront costs created significant affordability challenges for people in Solomon Islands. Based on an initial World Bank assessment, ...
