What is the EP Cube residential energy storage system?

The EP CUBE Residential Energy Storage System is your gateway to reliable, safe, and efficient power. Whether you're a homeowner or a business owner, this innovative solution is tailored to meet your energy needs. Looking for more details? Frequently Asked Questions... What is the EP CUBE Residential Energy Storage System, and who is it designed for?

What is Canadian Solar's EP Cube residential battery?

At the RE+ conference in Anaheim, California, Canadian Solar launched its newest residential product: the EP Cube residential battery. The battery can go up to 19.9 kilowatt-hours in size, comes with an integrated inverter, and can be installed with or without solar.

Why should you buy a Canadian Solar EP Cube?

Accessibility Canadian Solar has invested in state-of-the-art manufacturing and proficient supply chain partnerships to make the EP Cube attainable nationwide with low lead times and meet the rising demand for solar-powered homes.

Why should you buy a CSI EP Cube?

Spearheaded by CSI's industry expertise, innovation, and manufacturing prowess, the EP Cube has clear-cut benefits and high-tech features homeowners will value for years to come.

Canadian Solar EP Cube Hybrid Inverter. The EP Cube's 13.3kW hybrid inverter is designed to seamlessly integrate with your modular battery system. The inverter neatly attaches to the top of the battery bank, making it easy to install and operate. With the integrated hybrid inverter, the EP Cube is suitable for both new and installed PV systems.

Ventajas que ofrece la soluci&#243;n "todo en uno" EP Cube de Canadian Solar. La soluci&#243;n todo en uno EP Cube de Canadian Solar te ofrece una serie de ventajas que te resumimos a continuaci&#243;n. Un sistema compacto y f&#225;cil de instalar. Si ...

El EP Cube de Canadian Solar es un sistema de almacenamiento de energ&#237;a residencial flexible e inteligente. Esta soluci&#243;n "todo-en-uno" permite al cliente final sacar el m&#225;ximo partido de su instalaci&#243;n fotovoltaica y reducir la factura el&#233;ctrica. El producto ideal para un hogar sostenible y ...

Design My System is an online tool that lets you create your own solar energy system in minutes. You can choose your system size, battery capacity, inverter type, and other components based on your location, roof size, energy consumption, and budget. You can also see the estimated cost, savings, payback period, and environmental impact of your system.
