The battery park will be called the Baltic Storage Platform, in which Evecon will have a 20 percent stake and Corsica Sole will have 80 percent stake. Climate Minister Kristen Michal (Reform) said that the emergence of reserve and storage capacities in Estonia is good news and it is particularly welcome that it is being done by private companies.

The solar park has a capacity of 9.3 MW. It consists of 15,600 panels and covers a total of 11 hectares in the territory of the former Väo limestone quarry. Double-sided solar panels are combined with single axis trackers, and thus the period during which the solar park produces electricity is extended.
