

Will El Sun energy get energy approvals in Croatia?

El Sun Energy's photovoltaic project is one of 216 on the list of potential investors interested in obtaining energy approvals in Croatia. The public call for granting approvals was launched by the Ministry of Economy and Sustainable Development, and the total capacity of all power plants is 6,000 MW.

Is solar irradiation a viable energy source in Croatia?

The abundance of solar irradiation in Croatia shall enable photovoltaic energy to become an increasingly cost-competitive power generation source and attract new investments. Croatian solar resource potential Energy Institute Hrvoje Pozar initiated several solar radiation measurements projects in Croatia.

How can Croatia benefit from solar energy?

However, to harness this potential effectively, Croatia will need to adopt more ambitious solar energy targets, ensure clear renewable energy investment direction in the power sector, and develop its modern electricity grid. The clean energy transition and development of the solar power sector can contribute to GDP growth and new jobs creation.

How much solar power does Croatia have?

By the end of 2014, the country had approximately 33 MW solar capacity. However, solar photovoltaic market growth in Croatia between 2015 and 2019 was moderate, with only 20.4 MW newly installed capacity in this period from eligible producers. Chart 2: Croatia Solar Photovoltaic (PV) Electricity Generation 2011 - 2019 in TWh; Renewable Market Watch(TM)

What is the second-biggest photovoltaic project in Croatia?

If all plans are accounted for, it is set to be the second-biggest, as the Horizeo project in France is envisaged to reach 1 GW. El Sun Energy's photovoltaic project is one of 216 on the list of potential investors interested in obtaining energy approvals in Croatia.

Will Croatian solar photovoltaic market grow by 2030?

Croatian solar photovoltaic market size is still insignificant. However, it has already attracted the interest of reputable domestic and international market players in recent years, and our forecast for its development by 2030 is optimistic.
