Who is Grand Bahama Power Company?

Learn more about Grand Bahama Power Company, the sole provider of electrical power for Grand Bahama's residents since 1964.

Where did electricity come from in Guyana?

Electricity generation in Guyana began before the turn of the twentieth century with several individual entities, private/community enterprises providing their own power. Georgetown, a relatively small enclave, received power from a private supplier.

Who owns Guyana Power & Light Inc?

Thirty three years later, the Government of Guyana divested 50 percent of its ownership and control and the company was renamed Guyana Power & Light Inc. The investor was a UK-based consortium comprising the Electricity Supply Board International (ESBI) and the Commonwealth Development Corporation (CDC).

Who owns Guyana Electricity?

Thirty three years later, the Government of Guyana divested 50 percent of its ownership and control to a UK-based consortium comprising the Electricity Supply Board International and the Commonwealth Development Corporation. The divestiture failed and the company once again became wholly owned by the state on 1 May 2003.

What happened to GPL in Guyana?

This partnership dissolved in April 2003 and GPL reverted to 100 percent ownership by the government and people of Guyana. This arrangement still stands at present. Electricity generation in Guyana began before the turn of the twentieth century with several individual entities, private/community enterprises providing their own power.
