

Ghana teraloop oy

Who is teraloop?

Teraloop is a kinetic energy storage solutions provider for Sustainable Mobility and Distributed Energy operators. Our flywheels can be used as stand-alone or in combination with batteries, both individually or in arrays.

Where will teraloop pilot its flywheel energy storage technology?

With financial support from the European Commission in the framework of Horizon 2020, Teraloop will pilot its flywheel energy storage technology on Terceira Island, Azores archipelago. Teraloop is a kinetic energy storage solutions provider for Sustainable Mobility and Distributed Energy operators.

Could teraloop be a future alternative to batteries?

Teraloop is a grid-scale energy storage system that can provide a future alternative to batteries. Imagine a way to store energy that can meet the needs of the population, and provides a zero-waste solution that respects the Earth's natural resources. Growth no longer needs to come at the detriment of their environment. This is their long-term

Where is teraloop located?

Teraloop is located in Espoo, Southern Finland, Finland. Who invested in Teraloop? Teraloop has 2 investors including Startupbootcamp Australia and Horizon 2020. How much funding has Teraloop raised to date? Teraloop has raised EUR2.4M.

Why did Yaskawa invest in teraloop?

Yaskawa Electric Corporation completed a strategic investment in Teraloop during March 2017. This equity investment enabled Teraloop to accelerate the steps needed to bring its storage solution to the market. The financing allowed the prototype to be finalised for a complete simulation in commercial working conditions.
