

Gibraltar nvision energy

Who is Nvision energy?

Nvision Energy is an integrated developer, installer, investor and operator of solar power plants. Simply put, from the first plan, to completion of construction and then for 20 years or more of operation, we do it all. Founded in 2007, we have over a decade of experience in this. We believe in simple solutions and clear, straightforward business.

Why does Gibraltar need a LNG power system?

The people and businesses of Gibraltar will have better air quality, a quieter environment, and see the rewards of better energy efficiency. Michael Caetano, Chief Operational Officer of the Gibraltar Electricity Authority (GEA) When Gibraltar upgraded its nearly 40-year-old power system, they opted for a unique LNG solution.

Who is Nvision & equator energy?

We currently operate the largest commercial and industrial solar power portfolio in East Africa, making our subsidiary Equator Energy the market leader in Kenya and all of East Africa. Nvision develops, invests in and operates renewable energy projects and businesses. Our focus areas are Central and Eastern Europe and Sub-Saharan Africa.

Why does Gibraltar need a new power plant?

This secures Gibraltar's energy supply economically, environmentally and sustainably. The associated closure of the three old plants represents the largest measure taken to improve air quality and reduce greenhouse gas emissions. The new power plant consists of six engines; 3 of which run on natural gas and 3 of which are dual fuel.

How many power stations are there in Gibraltar?

There are currently three installations in Gibraltar producing energy. Two of these installations namely Waterport and OESCO power stations supply electricity to the civil population,...

Does Gibraltar need a cleaner liquefied natural gas (LNG)?

Until recently, Gibraltar's energy needs were 100% powered by marine diesel - so, a better solution was urgently needed - one that switches from diesel to cleaner liquefied natural gas (LNG).

As part of a new agreement with the Spanish government, Envision will develop a fully integrated industrial park in Spain. The site will house the design, research, manufacture and maintenance capabilities for core renewable technologies including electrolysis, air separation units, and modular ammonia synthesis units. The equipment will then be able to be deployed in ...
