

# Gibraltar solar panel for home

A recent study found that solar panels are viewed as upgrades, just like a renovated kitchen or a finished basement, and home buyers across the country have been willing to pay a premium of about \$15,000 for a home with an average-sized solar array. Additionally, there is evidence homes with solar panels sell faster than those without.

Q Cells, which is a brand manufactured by Hanwha, is the best solar company for value, in our opinion. Despite being more affordable than most other tier-one solar panel brands at around \$3.00 per watt, its panels still have above-average efficiency ratings and performance specs. They're not quite as impressive in their durability as some other options, ...
