

Gibraltar solar system for single family home

Where can I find information about Gibraltar?

Gibraltar serves customers primarily throughout North America. Comprehensive information about Gibraltar can be found on its website at gibraltar1.com. Media Contact: Ashleigh Kent, akent@terrasmart.com.

Can a single-family home benefit from home solar?

While exceptions to this rule exist (more on that later), you'll enjoy the most benefit from home solar if you own a single-family home with adequate roof space that's not shaded by trees or other obstructions. If your roof isn't an option, a serviceable amount of clear land may also allow for an array of ground panels.

Is community solar a good option for a renter?

For renters or multifamily homeowners, community solar, which is often a purchasing program wherein subscribers can opt to pay solar providers for some of their power, may be available in your area. For an initial viability check, simply plug your address into Google's Project Sunroof.

Can solar panels be installed on a south-facing roof?

If your roof isn't an option, a serviceable amount of clear land may also allow for an array of ground panels. South-facing roof surfaces or ground arrays will generate energy most efficiently, but you can utilize solar energy regardless of the direction your panels face.
