

In 2023, 181 countries signed the Global Renewables and Energy Efficiency Pledge at the United Nations Climate Change Conference (COP28) held in Dubai. Under the pledge, signatories commit to tripling renewable energy capacity by 2030 to curtail greenhouse gas emissions and achieve the goals outlined in the Paris Agreement.

????????????COP29????????(COP29 Global Energy Storage and Grids Pledge),????????,??COP28?2030????????

It is of critical importance that the financial backing and initiatives such as the Green Energy Zones and Corridors Pledge, the Global Energy Storage and Grids Pledge, and the Hydrogen Declaration, led by the COP29 Presidency, are supported broadly. To effectively implement these initiatives and achieve a genuine transformation in the energy ...

The Green Grids Initiative (GGI) calls on private sector leaders and civil society organisations to support the Global Energy Storage and Grids Pledge announced by the COP29 Presidency. This ...
