

# Global shipment ranking of photovoltaic brackets

What was the global PV tracker market share in 2023?

Global PV tracker shipments grew by 28% in 2023 to 92 gigawatts direct current (GWdc), reflecting a strong year for utility-scale solar in most regions across the world. The top ten vendors accounted for 90% of the global market share, according to Wood Mackenzie's 'Global solar PV tracker market share' report 2024.

How did global PV tracker shipments grow in 2023?

The US region saw 10% YoY increase to more than 37 GWdc of shipments in 2023. Global PV tracker shipments grew by 28% in 2023 to 92 gigawatts direct current (GWdc), reflecting a strong year for utility-scale solar in most regions across the world.

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

How did global PV inverter shipments grow in 2023?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market.

Who will dominate the global PV module market in 2023?

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 440GW in 2023, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, will supply 66.44GW of modules in 2023, up 42% year on year.

Which solar modules are the most shipments in 2023?

M10(182mm) and G12 (210mm) products together accounted for 81% of shipments by the top 10 module makers (excluding First Solar), with M10 taking up the largest share. M6 (166mm) and other formats accounted for around 14%, and n-type modules 4-5%. Manufacturers set ambitious shipment goal for 2023.

Sungrow tops 2023 global PV inverter shipment rankings, driven by increased R&D investments and pioneering 2000V inverters. With six global R&D centers, Sungrow supports renewable energy transitions across 170+ ...

In the 2012-2020 global ranking of the top 10 tracking companies in terms of shipments, CITIC Bo and Trina Solar are the only two domestic tracking bracket companies in the top 10 global ...

# Global shipment ranking of photovoltaic brackets

On June 10, the "2022 global photovoltaic top 20 ranking" initiated and held by 365 photovoltaic, 365 energy storage and smart energy was officially released to the world in the form of online ...

In addition to releasing the global inverter shipment volume rankings, S& P Global has also published rankings for inverter installations and regional market shipments. According to the data provided in the rankings, the ...

In the first quarter of 2023, the top four module brands continued to occupy the main market share, with a total shipment volume of over 45 GW, up over 50%. For shipment, the total volume target of the top four module brands ...

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Module Manufacturers was announced. The revenue of the top 10 module manufacturers exceeded 700 billion yuan and the ...

Global PV tracker shipments grew by 28% in 2023 to 92 gigawatts direct current (GWdc), reflecting a strong year for utility-scale solar in most regions across the world. The top ten vendors accounted for 90% of the ...
