

Hive energy Lebanon

Who is hive energy?

Hive Energy was founded in 2010 by Giles Redpath to participate in the significant solar PV expansion in the UK. Hive now operates from over 20 countries globally, including Croatia, South Africa, Spain, Portugal, Canada, Greece, Turkey, Argentina, New Zealand, and Serbia.

What is hive Energy's Hub model?

Hive Energy has adopted a hub type model, which aims to work with strategic and offtake partners along the value chain, to develop large scale green hydrogen and ammonia production that is accessible, safe, and highly competitive, with focus on both national and European markets.

Why did hive energy sell 200MW agrivoltaics to a new joint venture?

The company has successfully sold 200MW worth of Italian agrivoltaics to a new joint venture, indicating a significant divestment and capital inflow. Additionally, Hive Energy has completed the divestment of a 55-MW ready-to-build solar park in Andalusia, which further suggests liquidity and successful asset turnover.
