So when you choose electric - whether to heat your home, drive around, or cook your dinner - enjoy peace of mind that your choice is helping Guernsey take a step towards a cleaner, greener future for our island. With legislation quickly changing and technology evolving, start your electric journey today by finding out more about it. **Hydro**

Why are home battery storage systems so popular?

Home battery storage systems have skyrocketed in popularity during the past few years for many different reasons. Besides the obvious fact that they provide clean power, more and more people are recognizing that the grid isn't always reliable.

What is the most expensive way to heat a home in Guernsey?

Gas is the most expensive way to heat your home in Guernsey. And both gas and oil boilers are always less than 100% efficient - even at new. This means they'll cost you more to run each year they're used. Electric boilers produce zero harmful greenhouse gases around your property and are practically 100%-efficient.

What is the best battery storage system?

Our top pick is Generac PWRcell. We independently evaluate all recommended products and services. If you click on links we provide, we may receive compensation. [Learn more](#). Home battery storage systems have skyrocketed in popularity during the past few years for many different reasons.
