

# Home solar power equipment warranty

What types of warranties cover solar panels?

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to as an equipment or materials warranty.

What is a solar warranty?

Also known as an equipment or materials warranty, a product warranty protects you from any defects your solar equipment has that could have stemmed from workmanship errors during manufacturing or poor material quality. Standard product warranties typically last 10 to 15 years.

What is a performance warranty on a solar panel?

A performance warranty guarantees a maximum level of degradation- typically between .25% and .75% - per year so that in 25 years the panel will still have 80-90% of the power output it did in its first year. Performance warranties are important for sizing solar systems to maintain 100% offset for 25 years.

Do solar panels outlive warranty?

Yet, with solar panels' lifespans of around 25 years, they are likely to outlive the warranty. Manufacturing defects: Defects in manufacturing are typically covered by the manufacturer's warranty rather than solar panel insurance. Policyholders are encouraged to address manufacturing-related issues directly with the manufacturer or installer.

What is a power warranty for solar panels?

A power warranty for solar panels states the expected output of a panel after certain periods of time (eg 5 years, 10 years, 20 years). All solar panels are affected by gradual degradation in efficiency, so the output will decrease. If the panels do not perform as promised, you may be able to get them replaced or repaired - but some power warranties do not cover defects.

Does Panasonic offer a warranty on solar panels?

Panasonic is a top-runner in the solar panel industry. The Japan-based company offers its AllGuard and Triple Guard warranty plans to homeowners who go solar through a Panasonic Authorized AllGuard Installer. Product warranty: 25-year warranty that covers the panels, inverter, monitoring, and racking system.
