What is the financial sector like in Honduran?

The Honduran financial sector is small in comparison to the banking systems of its neighbors. After 1985, however, the sector began to grow rapidly. The average annual growth rate of value added to the economy from the financial sector for the 1980s was the second-highest in Latin America, averaging 4 percent.

What is the economy of Honduras?

A farming growing coffee in Honduras. Agriculture is an important part of the Honduran economy. Honduras is a country in Central America with a population over 9.1 million people. Data from the International Monetary Fund indicated that the nation's GDP was \$21.79 billion in 2017.

Does Honduras have a manufacturing sector?

Honduras's manufacturing sector has not yet developed beyond simple textile and agricultural processing industries and assembly operations. The small domestic market and competition from more industrially advanced countries in the region have inhibited more complex industrialization.

Does Honduras have a foreign investment law?

Honduras' Investment Law does not limit foreign ownership of businesses, except for those specifically reserved for Honduran investors, including small firms with capital less than USD 6,300 and the domestic air transportation industry.

How was the Honduran government financed?

Throughout the 1980s, the Honduran government was heavily financed by foreign assistance. External financing--mostly bilateral credit from the United States--rose dramatically until it reached 87 percent of the public deficit in 1985, rising even further in subsequent years.

What are the economic challenges facing Honduras?

Some of the main drivers of economic growth in Honduras include foreign investment and exports as well as remittance from citizens in diaspora. Despite the expected economic growth, the Honduran economy still faces some challenges with the main one being insecurity. Economic inequality is also a major challenge facing the Honduran economy.

OverviewEconomic historyUnemploymentRole of governmentLabor forceAgriculture and land useNatural resources and energySecondary and tertiary industriesAfter Honduras achieved independence from Spain in the early 19th century, its economic growth became closely related to its ability to develop attractive export products. During much of the 19th century, the Honduran economy languished; traditional cattle raising and subsistence agriculture produced no suitable major export. In the latter part of the century, economic activity quicke...
