Who is greencells group?

Click here for our imprint or here for our GTC. A major player in future-proof green energy, Greencells Group develops, builds, operates and finances utility-scale solar projects worldwide.

Who owns greencells Group Holdings?

To keep up with the strong market growth, Hoffmann and Kisauer founded Greencells Group Holdings, based in Abu Dhabi, with investor group Zahid in 2018. Greencells plans, finances and builds solar parks all over the world.

What does greencells do?

The Greencells Group is active in more than 25 countries and now employs more than 300 people. The 151 solar plants installed generate a total output of 2.4 gigawatts. To be able to guarantee the basic power supply with renewables, the company builds so-called hybrid power plants that combine solar energy with wind turbines and storage systems.

What does the World Bank report say about Honduras?

Honduras' opportunities for resilient, low-carbon development The World Bank Group's Country Climate and Development Report for Honduras provides policy recommendations for the country to achieve resilient, equitable, and people-centered development.
