

Hygea energy French Guiana

What is HDF Energy's \$200 million Centrale Electrique de l'Ouest Guyanais?

HDF Energy's \$200 million Centrale Electrique de l'Ouest Guyanais (CEOG) project is based on its proprietary power-to-power Renewable power plant. The plant will comprise a solar PV park, a 16-MW electrolysis platform, a long-term hydrogen storage unit, two 1.5-MW fuel cell systems, as well as a short-term lithium-ion battery storage unit.

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

How much daylight does French Guiana have?

French Guiana is situated in northern South America, close to the equator. It, therefore, boasts 12 hours of daylight throughout the year, which will allow the CEOG solar-cum-green hydrogen power project to operate consistently as a baseload facility all year round.

II. Energy situation in French Guiana French Guiana is a French overseas territory and an ultraperipheral region of Europe. Located in the northeast of South America, it is the largest region of ...

In French Guiana, a community of indigenous Kali'na began actively resisting plans for the world's first baseload renewable power plant using hydrogen technology--the CEOG project--in November 2022. The energy company, Hydrogene de France (HDF Energy), had touted the plans as an initiative that would deliver jobs for the local community, support a ...

Bordeaux (FRANCE), September 30th, 2021. HDF Energy (mnemonic code: HDF) and its equity partners, the infrastructure fund Meridiam and the petroleum operator SARA (Rubis Group) today announced the start of the construction of CEOG Renewable¹⁷⁴; Power Plant in French Guiana. CEOG is the world's first multi-megawatt hydrogen power plant, and the ...

A hydrogen "power station" which includes 15MWh of batteries as part of a total 140MWh of renewable energy-charged energy storage, will be built on French Guiana by Hydrog²³²;ne de France (HDF Energy). The power station, ...

W; Energy; French Guiana Energy; French Guiana Energy. See also: French Guiana Electricity Energy Consumption in French Guiana. French Guiana consumed 15,686,060,000 BTU (0.02 quadrillion BTU) of

energy in 2017. This represents 0.00% of global energy consumption. French Guiana produced 5,712,060,000 BTU (0.01 quadrillion BTU) of energy, covering 36% of its ...

French developer Voltalia has started construction on solar energy and storage project in French Guiana. The Savane des Pères project was awarded to Voltalia after the French government issued a call for tenders in June 2016. The project will benefit from a 25 year contract. The 3,8 MW solar energy plant will be paired with [...]

O governo da Guiana identificou as energias eólica, solar, biomassa e hidrelétrica como as quatro principais em sua proposta para gerar 100% da eletricidade do país através de fontes renováveis. O país tem potencial para hidrelétricas de pequena e grande escala, incluindo o projeto proposto Amaila Falls, com 165 MW. Para os investimentos em energia eólica e solar, estão em vigor ...

In 2021, French Guiana's electricity consumption demonstrated a strong emphasis on low-carbon sources, with about 70% of its electricity generated from clean energy. This includes more than half of its electricity derived from hydropower, which makes up the backbone of the region's low-carbon generation. Solar energy also supplies a modest share of nearly 6%, and biofuels ...
